Build Season Week One

Introduction

This past week has been a very interesting one! The FIRST Powerup Game was announced, and the build season officially started. As the build season starts, the team looks forward to an exciting and fulfilling 2018 build season! We will be working tirelessly after school on the robot and different committee tasks so please join us! Most nights we will work until 4:00, so please make sure to have a ride arranged.

Special Thanks!

Team 6643 would like to give a special thanks to the following people:

- All of our volunteers at the Robotics Merit Badge Clinic on December 27th!
- Nielsen Machine Company for cutting the pieces for our chassis!
- Brandon Georgi for machining custom parts for us!

Committee Updates

Construction:

- The construction committee has a design for the robot, and will start assembling the robot on Tuesday. We hope to have the chassis complete this week.

Drive Team and Scouting:

- The drive team and scouting have been working together to read through all rules, strategize for the game, and scout other teams for possible alliance partners.

Communications:

- Communications has worked on the newsletters and has been photographing and documenting all activities.

Safety:

- The safety tests will start on Monday, so if you would like to receive certification please talk to Paige about taking a safety quiz!

Records:

- Records has been busy inventory and purchasing all the parts of the robot.

Aesthetics:

- Aesthetics recently applied for a grant to help fund the pit, and will be designing this years t-shirts and buttons in the next couple of weeks!
- 

This Week's Schedule

Monday, January 15th	NO SCHOOL
Tuesday, January 16th	Meeting until 4:15
Wednesday, January 17th	Meeting until 4:15
Thursday, January 18th	Meeting until 4:15
Friday, January 19th	Early release

Help Needed

We need help! If you are interested in working on the Chairman's Award, please contact Nolan Tremlling at s114750@rusd.org. We also have tons of tasks that need to be done after school. If you are able to stay after school, even if it only for a little bit, please do!

More information is always available on our website: team6634.org

This newsletter intended exclusively for circulation within Walden III FIRST Robotics Team 6643 among members for the purposes of spreading general information.
