Build Season Week Two

Introduction

Build season has continued, and we are only one month away from bag day! There is a ton of work that still needs to be done. We hope to have the robot able to be driven by Thursday. This will not be possible unless we have people ready to help with the robot after school this week.

Committee Updates

Construction:

- The chassis is currently at Badger Meter for welding! We are expecting to get the chassis this Tuesday. There will be very little building until the Wednesday.

Drive Team and Scouting:

- Scouting is looking for help designing a 3D model of this years field. The 3D model is going to be used for strategizing how we play the FIRST Power Up game!

Communications:

- Communications has worked on the newsletter and has been photographing and documenting all activities. Communications also continues to review analytics from the December 27th robotics workshop to increase the quality of any future projects.

Safety:

- Safety testing is still available. Please note that ALL team members are required to have basic level safety certification: this means that ALL team members must take this test! The test is available for viewing on the team Google Drive, along with the safety presentations.

Records:

- Records has continued to conduct inventory. Inventory certification quizzes will be available starting this week.

Aesthetics:

- Aesthetics is continuing work on receiving funding for the pit. If anyone is willing to help the aesthetics committee on this, please do!

This Week's Schedule

Monday, January 15th	Meeting until 4:15
Tuesday, January 16th	Meeting until 4:15
Wednesday, January 17th	Meeting until 4:15
Thursday, January 18th	Early release - Meeting until 7:30
Friday, January 19th	No School

More information is always available on our website: team6634.org
